

STOCK MARKET

Improves After Having Been Under Intermittent Pressure in Forenoon.

New York, Aug. 1.—Stocks were under intermittent pressure during the early period of today's session, but made general improvement later on stabilization of call money rates. Sales approximated 1,000,000 shares. The close was strong.

Close Liberty bonds: 2 1/2% 39.90; first 3 1/2% 40.25; second 4 1/2% 39.25; third 5 1/2% 39.40; fourth 6 1/2% 39.25 Victory, 3 1/2% 39.15.

Opening Tone Uncertain.
Strongest money conditions, as indicated by yesterday's suspended rise in call loans to 15 and 25 percent, were mainly responsible for the uncertain tone of the stock market at the opening today. Calls ranging from large fractions to 2 points in value, and money rates, were the main factors.

Money Situation Continued.
The money situation continued to weigh upon the stock market during the first hour, but a pronounced change for the better set in before noon, when call loans were reduced to 10 percent, and 25 percent. The market then made a general improvement, and the close was strong.
